Dear Ms. McCarthy,

I am working on an article for Hellion Magazine's March issue. The article is about climate change and I would like to set up an interview in person so that we can talk about what the EPA has done about climate change. I live in the Washington, DC Metropolitan Area so meeting in person would be convenient for me.

I have included an attachment that gives a little information on Hellion Magazine.

Thank you,  
Selma Khenissi
